

LegalEase: AI-Powered Legal Document Generator

Define Problem Statements

Project Phase	1. Ideation Phase
Team	Team 3
Date	02 October 2026
Prepared From	Supplied LegalEase repository + supplied project templates

Customer problem statements

ID	Customer	Trying to	But	Because	Impact
PS-1	Individuals and small teams	Create a formal legal document from basic facts	They may not know the structure or clauses expected	Legal drafting is specialized and time-consuming	Delay, uncertainty and incomplete drafts
PS-2	Students / early-stage founders	Produce an initial contract draft quickly	Manual drafting requires repeated clause assembly	Reusable legal templates are not always available	More time spent preparing documents
PS-3	Users preparing common agreements	Download a usable document after generation	AI output still needs formatting	The result must be reviewable and exportable	Additional manual formatting effort

Source basis: Implemented claims are based on the supplied LegalEase repository. Items without repository evidence are explicitly marked pending, future, or not implemented.
