

LegalEase: AI-Powered Legal Document Generator

Empathy Map Canvas

Project Phase	1. Ideation Phase
Team	Team 3
Date	02 October 2026
Prepared From	Supplied LegalEase repository + supplied project templates

Target user

A person who needs a common legal document draft but may not be comfortable writing legal clauses from scratch.

Empathy area	LegalEase interpretation
Says	"I need a document quickly." "I know the basic terms, but not the legal wording."
Thinks	"Did I include the important clauses?" "Can I get this into a formal format?"
Does	Chooses type, enters parties/terms/dates, submits, reviews output and downloads.
Feels	Uncertain about wording and formatting; values speed and clarity.
Pains	Legal terminology, clause organization, repetitive formatting and completeness concerns.
Gains	Structured first draft, readable preview and downloadable formats.

Design implication

The interface should collect core information and make the generated result easy to review before download.

Source basis: Implemented claims are based on the supplied LegalEase repository. Items without repository evidence are explicitly marked pending, future, or not implemented.
