

LegalEase: AI-Powered Legal Document Generator

Customer Journey Map

Project Phase	2. Requirement Analysis
Team	Team 3
Date	02 October 2026
Prepared From	Supplied LegalEase repository + supplied project templates

Customer journey

Stage	User action	Touchpoint	Experience	LegalEase response
Entice	Realizes a document is needed	Personal/work context	Needs a quick starting point	Clear document-type choices
Enter	Selects type and enters facts	Streamlit form	Wants minimal inputs	Collects type, parties, terms and dates
Engage	Submits request	Generate button	Waits for AI drafting	FastAPI sends structured input to Gemini
Review	Reads draft	In-app preview	Needs confidence before export	Preview shown before download
Exit	Downloads document	DOCX/PDF controls	Needs usable file	Two export formats
Extend	Uses draft in real workflow	External tools / professional review	May need revision	Current scope ends at export

Key journey gap

The current implementation ends after export. Future work can add saved history, revision workflows, jurisdiction selection, citations and professional review support.

Source basis: Implemented claims are based on the supplied LegalEase repository. Items without repository evidence are explicitly marked pending, future, or not implemented.
