

LegalEase: AI-Powered Legal Document Generator

Problem – Solution Fit

Project Phase	3. Project Design Phase
Team	Team 3
Date	02 October 2026
Prepared From	Supplied LegalEase repository + supplied project templates

Canvas area	LegalEase fit
Customer segments	Individuals, students, founders, small teams and users needing first drafts.
Jobs-to-be-done	Turn basic facts into a structured legal-style document without manually assembling every clause.
Triggers	Need for NDA, employment, lease, service, partnership or another common document.
Emotions	Before: uncertain about wording. After: has a structured draft to review.
Available solutions	Manual drafting, generic templates, word processors or professional drafting.
Constraints	Time, drafting knowledge, formatting effort and access to professional help.
Behaviour	Collect facts, search examples, draft, revise, format and export.
Channels	Current: web UI. Future: institutional portals or workflow integrations.
Root cause	Legal documents combine specialized language, structure, completeness and formatting.
Solution	Guided form + Gemini drafting + automated DOCX/PDF formatting.

Source basis: Implemented claims are based on the supplied LegalEase repository. Items without repository evidence are explicitly marked pending, future, or not implemented.
